

The Patient – Centered Medical Home & You:

Frequently Asked Questions (FAQ) for Patients and Families

What is a Patient Centered Medical Home?

A Medical Home is all about you. Caring about you is the most important job of your Patient Centered Medical Home. In this personal model of healthcare, your primary care provider leads a team of healthcare professionals that collectively take responsibility for your care. They make sure you get the care you need in wellness and illness to heal your body, mind and spirit. Your personal provider and an extended team of health professionals build a relationship in which they know you, your family situation, your medical history and health issues. In turn, you come to trust and rely on them for expert, evidence-based healthcare answers that are suited entirely to you or to your family.

How will a Medical Home lead to better care for me?

There are many benefits to being in a Medical Home:

- Coordination of care occurs when any combination of services you and your provider decide you need are connected and ordered in a rational way, including the use of resources in your community

- Continuous care occurs over time and you can expect continuity in accurate, effective and timely communication from any member of your health care team.
- Accessible care allows you to initiate the interaction you need for any health issue with a physician or other team member through your desired method (office visit or phone call) and you can expect elimination of barriers to the access of care and instructions on obtaining care during and after hours.
- Proactive care ensures you and your provider will build a care plan to address your health care goals to keep you well, plus be available for you when you get sick.

Who is my Medical Home Team?

Your team may include a doctor, LPN or medical assistant. These professionals work together to help you get healthy, stay healthy, and get the care and services that are right for you.

What does my Medical Home Team do for me?

The Medical Home team is your team. They provide you with the care you need, when you need it and customize your care to meet your needs and expectations. We help you set appropriate health goals and work with you to meet them. We will spend enough time with you to ensure you understand what you need to do to successfully meet your goals and answer any questions you might have. We help you understand all your options for care so you can decide what care is best for you. And we will always treat you with the respect you deserve as a full partner in your health care.

What type of services does my Medical Home provide for me?

- Same day appointments
- Preventive care and physicals (health risk assessments, sports and school physicals)
- Chronic disease management (such as diabetes, heart disease, arthritis, asthma and more)
- Acute care for illness and injuries

Will my Medical Home help me take care of myself?

The care you receive in a Medical Home goes beyond the office visit with your personal clinician.

- We want to make sure you develop a clear idea of how to care for yourself.
- We want to help you set goals for your care and help you meet your goals one step at a time
- We want to encourage you to fully participate in recommended preventive screenings and services
- We will recommend tools and education materials you can use to improve your condition and manage your health
- We can provide you with information about resources in your community to help you manage your health and your well being

How can my Medical Home help if I need to see specialists or go to a hospital?

Your medical home team will coordinate your care with all your other health care providers. They will recommend quality specialists for you

and your family and will work with your specialist and the hospital to continuously plan and manage your care.

With your consent, your medical home team will inform specialists and hospitals about your medical conditions, your preferences and your goals and will follow up to obtain information after your specialty visit or your hospital stay. You can reach a Medical Home team member via telephone 24x7, and same day appointments are available during office hours.

Can my Medical Home help me when I have an emergency?

If you have a medical emergency, please dial 9-1-1.

For other clinical problems or medical advice, call your Medical Home first. Depending on the nature of the problem, we may be able to save you an expensive and inconvenient trip to the emergency room for problems best addressed by your personal primary care provider.

If you do go to the emergency room, please make sure you let the staff know who your primary care provider is and ask that they contact your Medical Home as soon as possible so we can help them take better care of you and your family.

What can I do to help my Medical Home team take better care of me?

You are encouraged to actively participate in your care.

- Understand that you are a full partner in your own healthcare
- Learn about your condition and what you can do to stay as healthy as possible
- As best you can, follow the care plan that you and your medical team have agreed is important for your health

Do your best to communicate with your Medical Home team

- Tell us all about your health, your medical history and the health history of your family
- Bring a list of questions to each appointment. Also, bring a list of any medicines, vitamins, or remedies you use.
- If you don't understand something your doctor or other member of your medical home team says, ask them to explain it in a different way
- If you get care from other health professionals, always tell your medical home team so they can help coordinate for the best care possible
